# ICONO/LAT 2013

Int'l Conference on Coherent and Nonlinear Optics (ICONO 2013)  
Int'l Conference on Lasers, Applications, and Technologies (LAT 2013)

The leading event in the area of quantum electronics, laser physics, photonics and their applications. History of the ICONO series goes back to 1965 and the LAT series of the conferences started in 2002.

ICONO/LAT 2013 will be held in Moscow, Russia, capital of the Russian Federation and one of the biggest cities in the world. Moscow's origin as a symbol of Russia goes back 850 years. Not exactly a pretty capital but one of great contrasts and constant change, Moscow contains a collection of stunning, iconic buildings at its heart—a record of Russia's amazing, turbulent history. Moscow's cultural treasures are spectacular, diverse and unique, while the confusing, capitalist chaos and new neon life gives Moscow a potent and exciting dynamic.

The satellite to the LAT-2013 Int'l conference on Fundamentals of Laser-Assisted Micro- and Nano-Technologies (FLAMN-13) will be organized on June 24-28, 2013, in St. Petersburg, Russia. For details, see [www.lastech.ifmo.ru/FLAMN13/](http://www.lastech.ifmo.ru/FLAMN13/)
